

VIDEO APPS

EVERYTHING, WITH ONE REMOTE

When you search or browse for movies or individual episodes of series, your results include videos available to stream from your selected video apps — no need to switch to a different input.

Don't have time to watch it now? Rather than search for it again later, 'Bookmark' it to add a link to the video directly to My Shows.

THE SMARTBAR

READY WHEN YOU ARE

The SmartBar, located at the bottom of the Home screen, predicts shows to watch based on what your household usually watches at a particular time or day. For example, if you normally watch the previous night's late-night talk show the next morning, you'll see it in the SmartBar when you wake up. If the kids tend to watch shows while dinner's cooking, those shows will be waiting in the SmartBar at that time each day.

QUICKVIEW

NEVER MISS A THING

While you're watching live TV or a recorded show, QuickView lets you see what else is playing now or coming up without missing the action on the show you're watching.

It's easy: press UP to see a mini guide; DOWN to display the SmartBar; LEFT to bring up your favourite channels; and RIGHT to take a look at what's playing on other tuners.

QUICKMODE®

IT'S NOT FAST-FORWARD, IT'S QUICKMODE

QuickMode lets you watch a show 30% faster, while also letting you hear what everyone is saying. No chipmunks allowed.

QuickMode is available while you're watching a recorded show, or if you're "behind" live TV (for instance, if you have rewound a show that's airing live). Just press PLAY to bring up the status bar, then SELECT to start QuickMode. Press PLAY and SELECT again to watch at normal speed.

TAKE A SHORTCUT TO GREAT SHOWS

So many channels, so little time. TiVo's What to Watch lets you browse shows available to stream, watch live, bookmark, or record.

Top-level categories include 'On TV Today,' 'Sports,' 'Movies,' and more. Each category also includes more specific sub-categories to help you find exactly what you're looking for. For example, from the 'Movies' strip, select 'View All' to see subcategories like 'New Releases,' 'Action,' and 'Comedy.'
