

Replacing your Cogeco TiVo PVR

1 Connecting your TiVo® PVR

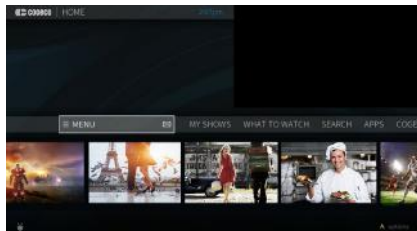

- Connect the coaxial cable from the wall outlet to the MoCA input of your TiVo.
- Connect the TiVo HDMI output to one of your TV HDMI inputs with the HDMI cable provided with your device.
- Connect the power supply to your wall power outlet.
- Take note of the HDMI input used. (e.g. HDMI-1).
- Press on the INPUT or SOURCE button of your HDTV remote. Once you see the welcome screen, you'll then be ready to start the activation process.

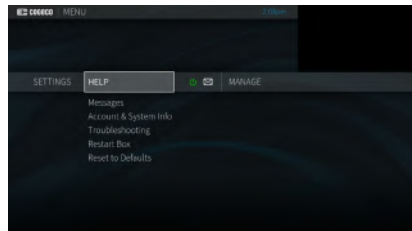

2 Configuring your TiVo PVR

After having connected your TiVo PVR to your television, use your remote and follow the following steps to activate your device.

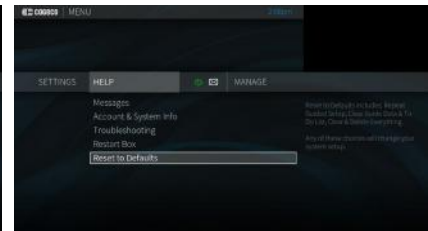

- Press on the **"TiVo"** button from your remote to access the home page and go to **"MENU"**.

- Go to **"HELP"**.

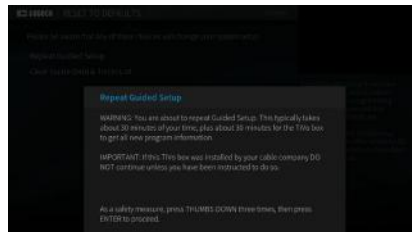

- Select **"Reset to Defaults"**.

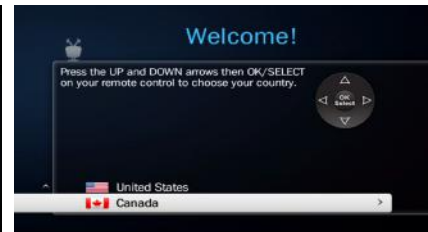

- Select **"Repeat Guided Setup"**.

- A new window will appear. You need to press 3 times on the red thumb button and then once on **Enter** (last one on the bottom right of the remote).

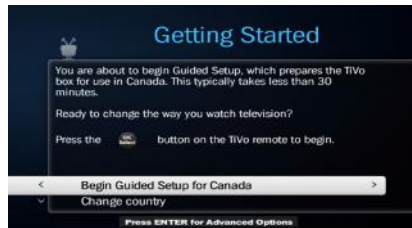

- Select **"Canada"**.

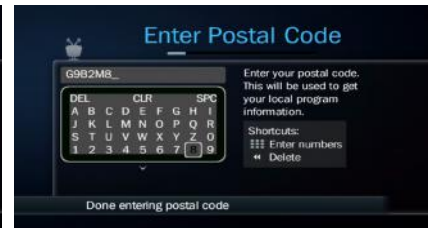

- Select your preferred language.

- Select **"Begin Guided Setup"**.

- Enter the postal code, as indicated in the received email **"XYZ XYZ"**.

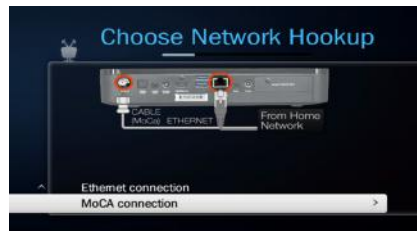

Replacing your Cogeco TiVo PVR

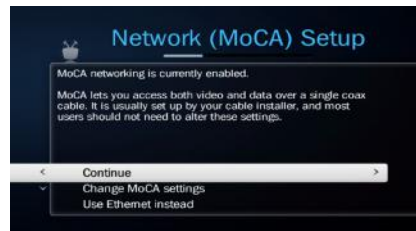

10. Select "Continue Guided Setup".

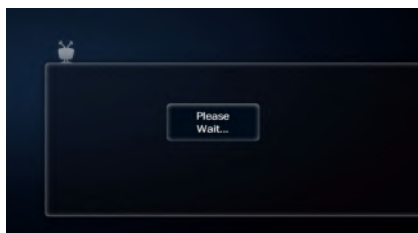

11. Select "MoCA connection".
Some installations use a network cable (blue or yellow) instead of a coaxial. If this is your case, select "Ethernet connection".

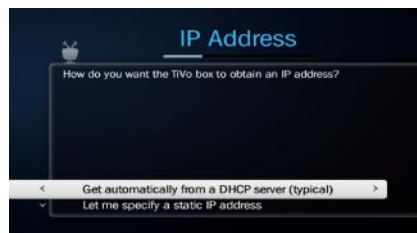

12. Select "Continue".

13. Please wait.

14. Select "Get automatically from a DHCP server (typical)".

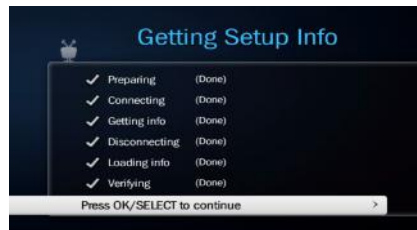

15. Select "Press OK/SELECT to continue".

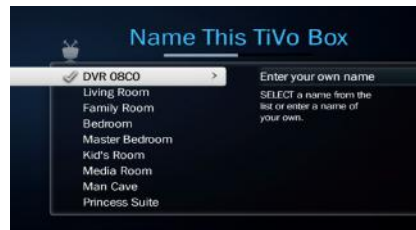

16. Select "Press OK/SELECT to begin connection".

17. Please wait for several minutes for all stages to complete, then select "Press OK/SELECT to continue".

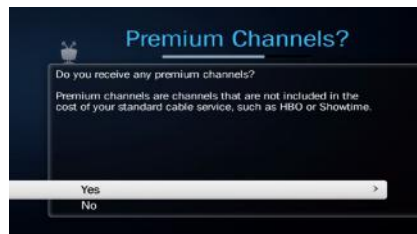

18. Choose a name from the list or enter your own.

19. Select the cable provider indicated in the received email.

20. Select "Yes" on this step. You'll then have to select which premium channels you're subscribed to. If you do not see this step, skip to the next one.

21. Validate all premium channels you subscribe to.

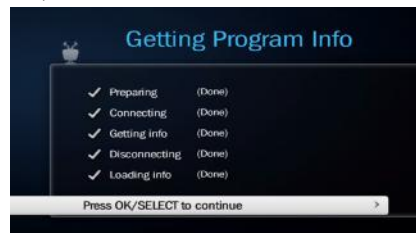

22. Select "Press OK/SELECT to continue".

23. Select "Press OK/SELECT to begin connection".

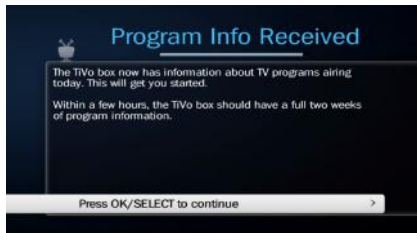

24. Please wait for several minutes for all stages to complete, then select "Press OK/SELECT to continue".

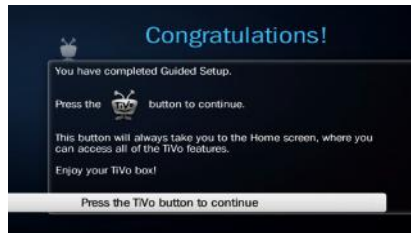

Replacing your Cogeco TiVo PVR

25. Select "**OK/SELECT** to continue".

26. You have completed Guided Setup. **Press the TiVo button to continue.**

3 Using your TiVo remote

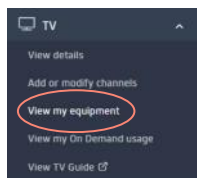

You must now pair your remote to your new cable box.

Press and hold down the **TiVo** and **Back** buttons simultaneously on your remote until the light blinks yellow, then bring it near the cable box. The light will stop blinking once it is paired.

4 Activating your channels

1. To activate your channels, you'll need to sign in to myaccount.cogeco.ca

A. Go to "TV" section, then "View my equipment".

B. Click "**Activate/Reactivate**" on the TiVo Gateway line.

C. Accept user agreements and click "**Activate**".

2. If after one hour your channels remain deactivated on your screen, contact technical support at 1-855-701-4881.

5 TiVo Mini

Now that your main TiVo device is connected and functional, if you have TiVo Minis, for each one you'll need to follow the Minis guided procedure that you've received within the same email.
