

## Managed Wi-Fi

A complete managed Wi-Fi service designed to maximize savings, performance, and user experience.

### Switch on smarter connectivity:

- **Always-connected devices:** A commercial cloud-based Wi-Fi infrastructure that always works, combined with remote monitoring from Cogeco.
- **Seamless mobile experience:**<sup>1</sup> A service that provides full Wi-Fi coverage to employees, guests, and residents for more productivity, collaboration, and satisfaction.
- **Scalable Wi-Fi architecture:** A professional network configuration and design that meets the specifics of single and multi-location businesses.
- **Smart and branded Wi-Fi:** A portal to customize your guest online experience, and see real-time data reports on usage,<sup>2</sup> loyalty, and engagement KPIs.

### Switch on peace of mind:

- **Predictable costs:** Monthly pricing per access point (AP) that includes hardware rental, application updates, monitoring, end-user support, and maintenance.
- **Simplified network management:** Out-of-box solution that comes with a Wi-Fi management portal and pre-configured user experience for staff, guests or residents.
- **One trusted connectivity provider:** Get reliable Internet and Managed Wi-Fi from a single-source that owns its network and takes care of capital expenses.
- **Secure and quick wireless access:** Your employees can connect to the Internet and your internal network, along with a separate access for your guests or residents.

“ I’ve had a wonderful experience with Cogeco in general. I’ve referred many of my customers to Cogeco over the past couple of years and I have heard no complaints from anyone during that time. ”

- Dave Mitchell, Sole Owner, Computer Plus, Perth, Ontario

Some restrictions may apply. Full applicable conditions of use are available at [cogeco.ca/business](https://cogeco.ca/business). Offers, specifications, and regular rates may change at any time without notice. Applicable where Cogeco Business Internet is available; this service is designed for business use only and may not be used by ISPs or other Internet access resellers to provide connections to third parties. Cogeco Managed Wi-Fi should be combined with Cogeco Business Internet with a Business UltraFibre 80 package or higher or Dedicated Fibre Internet with 100 Mbps. Minimum 3-year commitment. 1. Cogeco does not guarantee an optimal Wi-Fi experience if more than 40 simultaneous connected devices are connected to a single access point. The Wi-Fi design results might require higher connectivity for your premise. 2. Available fall 2018. 3. Professional fees may apply.
